

(Comment in email to Camden on 2018/0696/P)

We are not opposed to the replacement of the garden shed provided it is the same size as the existing shed.

The application is somewhat vague about the proposed location of the pod ("middle right-hand side" of the garden) and the potential impact on neighbouring gardens. It is a bold, futuristic design and appears to rise somewhat higher than the neighbour's fence closeby.

The Forum would be concerned that the design is not in keeping with the South Hill Park Estate Conservation Area and therefore would be contrary to Hampstead Neighbourhood Plan DH1 Design and DH2 Conservation areas. No. 41 Nassington Road is listed as making a positive contribution to the conservation area.
